Course Information

Sanborn County Park is home to well-groomed but steep and difficult trails, which makes for a challenging for runners of all abilities.

Situated on the eastern slopes of the Santa Cruz Mountains and home to giant coastal redwood groves, the park is shaded and relatively temperate even in the hotter months, making it a local favorite for hikers, runners, and mountain bikers. Racers can expect big climbs and descents with good footing on flowy singletrack trails through dense forest.

The Half Marathon and 50k Courses will extend into Castle Rock State Park, where the trails are a bit more technical and the course much more remote.

You can navigate the interactive race maps at our official website [here](#).

- The 10K course will see a net gain/loss of 1,736'
- The Half Marathon course will see a net gain/loss of 2,834'
- The 50K course will see a net gain/loss of 6,078'

Aid Stations and Cutoffs

Our goal with our intermediate cutoff times is to allow runners to stay on the course as long as possible. Note that the pace required to make it to the finish line cutoff is faster than the pace required to beat the prior cutoffs. Beating the cutoff for one of the early aid stations is not an indication that you are on pace to beat the overall cutoff.
